**WARNING: THIS IS A 2 PERSONS ASSEMBLING, HEAVY LIFTING REQUIRED**

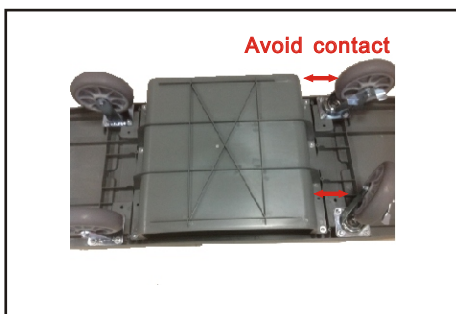

1. Place 16 M7x7.5cm bolts in position shown in image no. 1

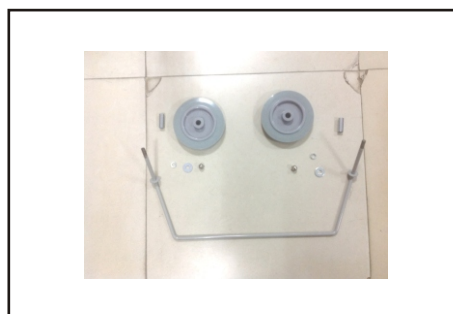

2. Bolts must be fully inserted as shown

3. Turn base upside down and tighten all the bolts with washers and nuts

4. Install base drawer, make sure the swivel wheel can turn 360° freely.

5. Install side wheels on the steel frame as shown, metal ferrule and spring washers are needed for this side.

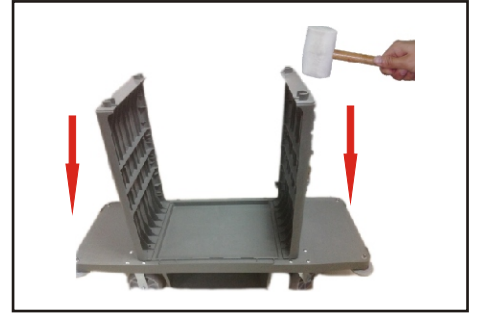

6. Place nut caps on top as shown.

7. Install the other side with side wheels using the 2 longest bolt and nut

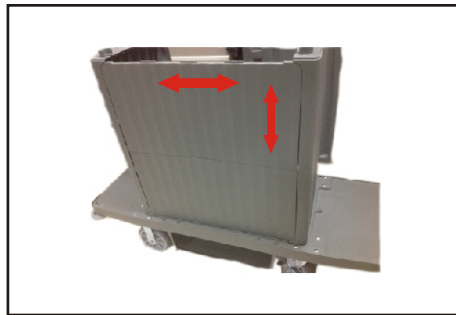

8. Tighten the nut on top side as shown

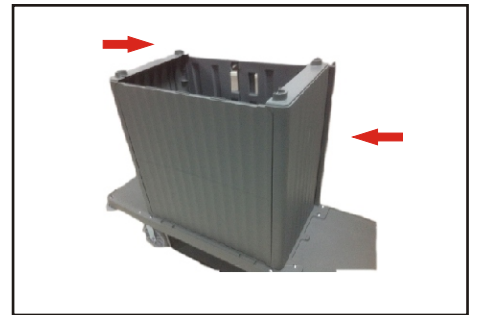

9. Install side walls as shown using a mallet and hit the side wall until firmly placed in position as shown

10. Install back wall horizontally, make sure all connectors are in the right positions

11. Install top back wall, make sure no gaps are visible from the back

12. Install doors in at the front, make sure door locks are in locked status

13. Place the top on and secure all plastic parts using screws and washers

14. Place shelves on and secure with screws

15. Attached garbage bags on the side to complete the installation
